Re: Scientology v. Armstrong

Dear Mr. Wilson:

I have been told that someone working for the Scientology organization attempted to serve me at my mother's home in Chilliwack, B.C. sometime last month. My mother refused service because I have not lived there for many months, so I am not certain what you or someone else tried to serve on me.

I have seen a document on the Internet which purports to be Scientology v. Armstrong, Minton and the Lisa McPherson Trust, Marin Superior Court Case No. CV 021632, but I have no way of confirming if what is on the Internet is what you or someone wants to serve on me.

Will you therefore please mail me a copy of the lawsuit at your earliest convenience at this address:

Will you also please correct my address in all your records and files and all Scientology's records and files so that my mother is not bothered or harassed in any way by you or any other Scientology agent. I do not have a telephone yet, but will advise you, Judge Smith and Mr. Minton when I do obtain one.

If you were not trying to serve me with Marin SC No. CV 021632, or any other lawsuit or document, then I beg your pardon. If you were, then please mail it to me at my address above, and I will accept it. And if you are required to serve me, please don't fudge service, or refuse to serve documents on me, as has been your bad habit this past few years.

Thank you for your anticipated excellent service.

Yours faithfully,

Gerry Armstrong
